#### COMMENT OF THE DAY

#### Welcome Move

L' drones on and on-a monotonous cacophony of grumbles and censures, protests and outcries, like the noise of angry insects. It will not be surprising if the American aircraft carrier and 16 destroyers to the Pacific rouses her captious, carping critics to new denunciations; another example of politics, another attempt to intimidate the Chinese, another move that will bring a Pacific war or World War III nearer: this British." will be the interpretation of the hysterical. Somebody is bound to ask; "does this mean we are going to have another trigger-happy cans have about Hongkong. Admiral in the Pacific?" The pedants can seize on the timing of the announcecurse America's apparent tactlessness—for are they not renowned for their gauche clumsiness, their unhappy knack of uttering like ' "agonising reappraisal" and "massive retaliation" when diplomacy would ordain a golden silence?

TATE welcome the proposal, however, and we feel that Southeast Asia, particularly that part of it now committed to mutual defence of the area, will also welcome this new concentration of sea power in the Pacific. The deployment of the 17 ships will go a long way to convince those sceptical of a "toothless" SEATO pact that this is proof of America's intentions to protect the freedom of the and its problems. area. It is quite possible the naval force will be used police the Formosa Straits—but this cannot be as a sign taken belligerence against the Chinese. Since the move will not be completed for four months it would be wrong to conclude that "those crazy Americans are rushing ships to defend Quemoy."

critical in the past of a out. number of foolish stateno indication that either to protect Quemoy. Mr Dulles last Sunday made a important comment which many people seem to have overlooked. He said that while military or navacommanders may recommend the protection or defence of the island, in the end the decision rests with the Administration. So there is no suggestion of foolish Admirals acting impulsively in this case.

DEFENCE of our ally is not actuated merely by grati-

### **OPPOSITION** TO GATT IN AMERICA.

Washington, Sept. 15. Mr Russell Smith, Director of Foreign Operations of the Bank of America, said today that a stabilised US trade policy "would do more than anything else to establish economic security and a greater volume of trade in the free world." Mr Smith testified in the third

day of public hearings before a special Government-sponsored panel considering revisions in the General Agreement on Tariff and Trade (GATT).

He said the present GATT instrument was "admittedly not penfect" but that it furnished a mothod for exchange of ideas and opinions on trade at the international lovel and was bringing about a better understanding of the mutual problems of member nations.

A stable, firm U.S. policy, perhaps brought about through GATT negotiations, the said, would create an atmosphere of assurence and, would eliminate periodic threats of increased tariffs or quotas:

#### OTHERS OPPOSED

But Mr Smith was the only pro-GATT witness at today's session. Five other representatives of various domestic industries or businesses opposed it in one degree or abother.

Karl Loos of the legal firm Pope, Ballard and Loos, which represents clients in the fruit and nut growing industry, said the GATT terms should be made to conform to US laws rather than making US policy cubservient to an international ogreement.

Ho said many conflicts now existed, principally between tural support laws.

Lynne Warren, general counsel of Shenango, China, Inc., manua general court there should be more industry tion of international : trade US delegation to GATT or any succeeding international agency." Mr E. L. Morris, director of tuna industry's present difficul-

American bombers, like their Britain can 'offer a range of airliners covering every possible airliners, represent the logical and highly-efficient development of a well-tried basic type. But how much longer can they achieve the performance needed best engines no nation could But the supreme tribute to piston engine does a job better

Their current bombers have severe operational limitiations. They require longer runways than our own V-bombers. Their. thin swept wings cannot enclose the undercarriage, which takes up useful space in the fuselage. A special landing technique is needed: the aircraft must be landed within very narrow speed limits dependent upon its weight at the time.

For the rough and tumble of wartime operation this exacting requirement contrasts sharply with the handling characteristics of the British V-bombers and, in particular, the selflanding capabilities of the crescent-winged Victor.

Soon the Americans must into servico aircraft designed on entirely new lines. We have already done so. In fact we hold the lead. A

convincing lead. If the British aircraft industry is criticised, in spite of all its successes, I believe it is mainly because we are more secrettive than most coun'ries about our achievements. For security reasons we say very little about cur supersonic sireraft and rocket developments, or our fearsome amoury of guided weepons.

America believes in a judicious lifting of the security vell. For the most part, we do not. But, for all my confidence, I am still far from happy about some of the planning aspects of our defence programme. Russia hides many socrets.

Cut Navy.... And the whole technique of warfare is changing rapidly.

The balance of the British Armed Forces is not being changed at the same tempo. Today Britain's supreme need -indeed the prime shield of peaco-is an effective bomber

I believe Britain should have at least 150 jet bombers actually on the airfields. Not one is

And, of course, it is useless to have the bombers there unless they have the weapons to carry. Britain should also be cutting down on the Navy and the Army Estimates, be ready even to cut down on Fighter Command. This would release a bigger production effort not only for the born-bers but also for the guided missiles which will provide the most effective defence of the

country in the years sheed.
To sum up, I would say, that Britain is still ahead of America. Our engines retain their store macy . Our sirliners are replace ing American types. And our military aircraft are in the

Delicate Play Not Hard for Expert

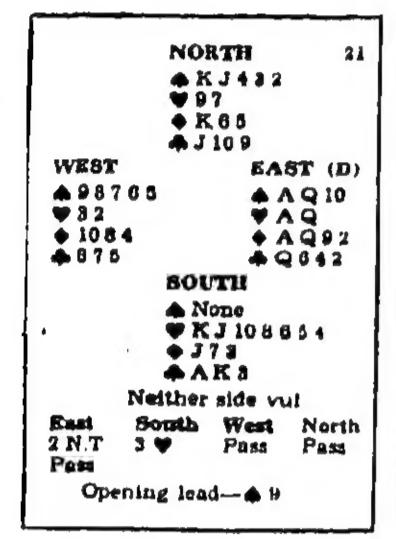

By OSWALD JACOBY

TY American bidding standards, East would not have an opening bld of two notrump. Such a bld shows 22-24 points, and the East hand actually counts to only 20 points. The hand is taken, however, from a match played between the Americans and the English a few months ago, and the English are somewhat more adventurous in the opening notrump bldn than American experta are.

When the hand was actually played, declarer put up the jack of apades at the first trick and ruffed East's queen. When South then ied a trump, East took his two trump tricks and led the ace of spades.

South ruffed again, and led a diamond. East captured dummy's king with the ace of diamonds, cashed the queen of diamonds, and got out safely with a third diamond. South still had to give up a club trick and was therefore defeated.

South had three chances to make his contract and maffed all three of them. To begin with, he could have discarded

a diamond at the very first trick, thus during East to find a safe return

After South actually ruffed the first trick and gave. Eas two trump tricks, he could have discarded a diamond the ace of spades. This again would leave East without safe continuation.

Even after South ruffed the ace of spades, he could have all of his trumps, saving m dunumy the king of spades, two diamonds and three clubs, East saved only two diamonds, he would be put in with his diamond tricks and forced lead clubs or spades to the

If East saved three diamonds, South would cash top clubs and put East in with a third round of clubs. East would then have to lead monds to dummy's king.

South must merely place every missing high card in the East hand as justification for the opening bid of two

#### **CHAMPIONSHIPS**

## Wanted!-Just One Feminine Version Of A Goliath Slayer

Well, it seems that the Davidesses, or whatever is the female of David, have still to appear so far as this year's Ladies' Tennis Championships are concerned because there can be very few who will not agree that in the quarter-finals of the Ladies' Doubles event, played last evening at the LRC, it was the favourites who came through.

Perhaps the surprises will come in the Mixed Doubles event; that imp we mentioned yesterday is a bit like Mr Micawber, always waiting for something to turn up, but so far as our ladies are concerned, it seems (ungaliant thought) as though our reigning champions are like King Charles the Second, an unconscionable time o' dying.

much going on for any one per- scored by both sides.

The match was marred by a The most outstanding of them lot of double faulting on both sides and the best general comment seems to be that it was the better combination of Mrs Ip and Mrs Yang and Mrs Ip's deadly accuracy (we quote one of the opposition) in her placing

> There seems to be little doubt that her courteraft is, in Ladies' Doubles, the best in the Colony today and that it will take players of about international standard to beat this couple.

> > ....BUT IT DIDN'T

### Carnera Story Is One Of Greatest Ironies In Sport By ARCHIE QUICK

Way back in 1929 I stood on the tarmac of Croydon Aerodrome and watched the Paris plane wheel slowly to a halt. With me was boxing manager Benny Huntman, and, when the cabin doors had opened, we had our first sight on English soll of "Man Mountain" Primo Carnera. The man who was destined to become world heavyweight champion and about whom financial crises beat so heavily was here to fight Jack Stonley of Deptford.

He caused a sensation when Carnera lest on a foul to the for inches and eightern some to knock out German champion invaluable out Pat Carlin.

#### TWO COURTYARDS

There are two courtyards, Stuart, of Bray, Eire, who one for men and the other for women. The patients, who sleep on reed mats on the stone floor and during the summermost of them prefer to have treatment during this seasonare protected from the direct heat by large sun shelters. Tho hospital supplies them with

> There were about 1.200 inpatients in the two courtyards. during one recent week.

Treatment of bilharzia takes In this apparent contradiction about a month and the patient 10s. Treatment of hookworm

"The women patients, are: particularly grateful," says Dr Stuart, "for they seem to regard their stay in the hospital as a holiday from the drudgery of everyday life."

In these courtyards, treatment, in which injections play a prominent part, somehow resembles a mass production line in a factory. raw one Syrian doctor, with nexistante at hand to fill and. sterillse his syringes give intra-veinous injections to a long line of men patients at the rate of seven a minute, .

or over 400 an hour. Running the hospital costs about - £95,000 a your, Income from fees - those occupying beds naturally pay more, on a graduated scale, than the outdoor in-patients—is in the region of £90,000 a year.

The small discrepancy between expenditure and income is met by local donations, support from Missionary Society in England and Australia, and canteen

#### TOO BUSY

They were too busy in the hospital last year to prepare an annual report, but the figures for 1952 tell their own

Patients numbering 3,665 pent an average of 13.8 days in the hospital wards, Major operations numbered 2,932 and minor operations

Men and women who received

treatment in the endemic discases courtyards totalled 11,902. Attendances at the Out-patient Department number 175,412 and laboratory tests performed reached a total of 91,716. Every possible space in the hospital is utilised. As Dr Stuart says 'Not a square inch is being used for less than three purposes."

Dr. Stuart is looking forward to the time when a new hospital block can be built. This will cost about £85,000, slightly over one-third of which is already available.

But when the extension is

completed, " it will be a great day, for Dr Stuart and the which she describes with just a touch of Irish accent, as being "s cross be-tween Blackpool and Hamp-stead Heath at holiday time." -China Mail Special.

New York, Sept. 15.
It is quite likely that the price of copper may. rise from the current level of 30 cents per 1b before the end of the year, many traders here believe. The prospect of a price

increase is due to strikes here and in Chile which may well, cause an acute shortage during the next few months. At the same time the world's thisold stocks of copper have fallen to 230,000 short tons at the end of August pared with 405,000 tone at one time last year.

It was estimated that the United States lost some 57,000 tons in strikes at domestic and Chilean mines during the last 30 days, and if the strikes are not settled the US may lose a further 61,000 tons in the next 30 days.-

### "Step-by-Step" Transformation To Socialism

## Earthquake Rises

Algiers, Sept. 15. Government officials estimated tonight the final death roll in the Orleansville earthquake would riso to 1,800 when the bodies of all the victims had been discovered.

Scores of bodies are lying in villages and hamlets Orleansville, the centre of destruction in last Thursday's 12-second shock but the authorities have

not been given details. About 100 of the 500 wounded who had been taken to hospital, would probably die from gangreve, the officials added. The disease had set in because many of the victims in outlying villages received no medical treatment for 48 hours after the catas-

trophe. Officially, the Orleansville carthquake victims totalled 1,409 killed and 566 seriously injured and taken to a hospital in Oran Boufarik Algiers, Millana of the Governor-General's Office announced this evening.

It was estimated the totalled nearly injured because a large number of the slightly hurt returned home.—Reuter & France-Presse.

### Adlai Stevenson Attacks Republicans

Cincinnati, Sept. 15. Adlai Stevenson, titular head of the Democratic vistd or, where necessary, re-"Americans were ready to get off" the Republican diet of "niceness, nonsense and nastiness in Washington". Mr Stevenson, appearing at

a rally of Hamilton County Democrats here, said the vote in Maine showed the American people were tired of the "diet" because "the Republican Government is not working as it should,"

The unsuccessful Democratic candidates for President in 1952 pointed out several during the first two years of the Elsenhower administration.

listed "evaporation of American influence in the world, great Communist victory in Russian satellites, the break of creased unemployment."

hard to find, for as someone has the mass of the people. said, the Republican Party is not a Party, it's a brawl."

'DEGRADING SPECTACLE' The former Illinois Governor said, "The ugliest of our exhibitionists, and the bitterest criticism of our public policy in two years has come from Republicans." He referred to "the Army - McCarthy spectacl: that occupied the nation and revolted the sworld." hope the Republicans Socialism. have learned that a foreign

# Death Roll Necessary For China

Paris, Sept. 15. The Chinese Vice-Premier, Liu Shao-chi, told the first Chinese National People's Congress that the Socialist revolution would have to be carried out in China "not through the overthrow of the Capitalist state system" but a "step-by-step" transformation, the Communist New China News Agency reported tonight.

This, he said, was because China was a people's democratic country led by the working class. The Socialist economy owned by the state had already become the leading force and the capitalist sector was not dominant in the national economy.

Liu who was presenting a report to the plenary session of the Congress, added that the transition period to Socialism would be "very long" and must be achieved "gradually".

He sald that the "national | Congress in Peking to build

Since the founding of the an elected Parliament, People's Republic of China five years ago, the country had inded her former position as a the rule of foreign imperialism" and had become an independent state. She had emerged as a great power in the world.

Together with the Soviet Union and the People's Democracles, China had become a bulwark in the defence of world ptace, Liu saidi

#### TRUE MASTERS

China, he added, was a People's Democracy where the overwhelming majority were the true masters of the state, This was in sharp contrast with capitalist countries in which the ruling bourgeoisie formed only a minority,

He said the draft Constitution from the State Council to local people's councils at the lowest level were established, supermoved by the National Propie's by the accused were admit-Congress or local Congresses ted in evidence and read to elected by the people.
